Dear Angelique Rockas,

Thank you very much for your letter,  
its information regarding New Theatre and the invitation  
to be a member of your advisory group. I accept  
that invitation without hesitation. You are quite  
right in believing that I would endorse the  
principles of an internationalist company.

I have made a note of your address and  
telephone number as it seems likely that I will  
be in London in June. It would be good to  
meet and hear more about your work... the reviews  
you sent me certainly suggest a commendable  
standard.

Good luck with your next  
production.

Athol Fugard.
